## FRONTEND DEVELOPER —

### SKILLS

---

React.js , Javascript , Html , Css, Tailwind , Firebase, Git , UI

### PROJECTS

---

#### Star-Merchs

*Tech Stack - React.js, React-router, React-redux-toolkit, Tailwind CSS, Firebase*

- A Star-Wars themed E-commerce website with protected routes for Admin and normal users.
- Admins can add, edit, and delete products with CRUD operations. Users can view products with features like add to cart, etc.
- A log of users and products is displayed in the Dashboard tab, accessible only with Admin login.
- GitHub Link: <https://github.com/AnuragM042/E-commerce>
- Live Link: <https://react-ecommerce-5bb4e.web.app/>

#### Demo-Dogs

*Tech Stack - React.js, React-router, React-slick, Tailwind CSS*

- Redesigned a website's UI and recreated the Frontend from WordPress to React.js.
- This demo website helped me understand and to create a clean and friendly UI for users.
